

***Production/Markets Group***  
**Time Bound Statement with Targets: Founder**

As a Production/Markets **Founder** Partner with the GDST, Culinary Collaborations endorses the *GDST Standards and Guidelines for Interoperable Seafood Traceability Systems* and is committed to its adoption and implementation across the seafood sector worldwide. We recognize that, although implementation of GDST standards may require a phased approach:

- 1) Interoperable traceability is vitally important to responsibly produced, globally traded seafood;
- 2) GDST Core Normative Standards are mandatory for full and proper implementation of interoperable traceability;
- 3) Participation in the Dialogue process gives GDST partners a voice to help effect change and evolve the standards.

As a **Founder** level Partner, Culinary Collaborations, LLC will work to adopt and implement the GDST standards **in our operations and supply chain** for all seafood products purchased internationally and domestically by January 1, 2024; and will define and share specific measurable targets for that adoption/ implementation with GDST.
