

**General Adoption Statement: Endorser**

As a Facilitator **Endorser** Partner with the GDST, Sustainable Fisheries Partnership endorses the *GDST Standards and Guidelines for Interoperable Seafood Traceability Systems* and is committed to its adoption and implementation across the seafood sector worldwide. We recognize that, although implementation of GDST standards may require a phased approach:

- 1) Interoperable traceability is vitally important to responsibly produced, globally traded seafood;
- 2) GDST Core Normative Standards are mandatory for full and proper implementation of interoperable traceability;
- 3) Participation in the Dialogue process gives GDST partners a voice to help effect change and evolve the standards.

We permit  X , or do not permit     , the GDST to publish this adoption statement on their website.
