

As a Production/Markets **Endorser** Partner with the GDST, Grupo Profand endorses the [GDST Standards and Guidelines for Interoperable Seafood Traceability Systems](#) and is committed to its adoption and implementation across the seafood sector worldwide. We recognize that, although implementation of GDST standards may require a phased approach:

1. Interoperable traceability is critically important to responsibly produced, globally traded seafood.
2. GDST's Core Normative Standards are mandatory for interoperable traceability implementation.
3. Dialogue participation gives GDST partners a voice to effect change and help evolve the standard.

We permit, the GDST to publish this adoption statement on their website.
